SUMMARY

👋 Hi there! I'm currently pursuing a BSc (Hons) in Software Engineering at ICBT Campus, but my passion for Software Engineering extends beyond the classroom. I've taken the initiative to self-learn Software Engineering, diving into various topics and technologies. With a strong foundation in Java, JavaScript, Python, and more, I've also explored frameworks like React Js, Next.js, and I use to backend language using Node js Express js and Prisma. 📦 Looking ahead, my goal is to transition into a Software Engineer role, capitalizing on my skills in software development. In my free time, I relish working on personal software projects, perpetually seeking new challenges to enhance my expertise. 🚀 Let's connect and explore how we can collaborate on exciting ventures or discuss opportunities for growth and development in the tech industry!

EXPERIENCE

Full-Stack Software Engineer

Lakion

📅 10/2023 - 01/2024

📍 Gampaha District, Miris Watta, Western Province, Sri Lanka

- Worked with a CRM system using Next.js, Prisma, and MySQL
- Goal was to complete that task during the internship
- Successfully completed the task

Software Engineer Intern

FlexyCode

📅 02/2023 - 08/2023 📍 Miriswatta Srilanka

i coded as a fullstack software engineer in this company.

- i used mern stack technology and i had to implement a system's frontend.
- i learn HTML, CSS, JS, React js for the main languages and Node js, express js are the extra languages

PROJECTS

ARTIK

As the Frontend Developer i spearheaded the creation of ARTIK, A collaborative project encompassing HTML, CSS, TAILWIND CSS, NEXT JS. It has a register, View Arts, updating the user details, also user can log out the site

Blog Website System

As the Frontend Developer i spearheaded the creation of Blog Site, A collaborative project encompassing HTML, CSS, TAILWIND CSS, NEXT JS. It has a register, logging create a memorial, updating the user details, delete memorials and updating memorials, also user can log out the site

KPDEV Portfolio

I designed and developed my portfolio website. you can visit the site, download my cv, see the project i have done and contact me via email. i added this functionalities to the website. i used React js, EmailJs, Tailwind CSS technologies to the website.

Lab Appointment System

I developed a lab appointment system only frontend. it has an admin dashboard and user dashboard. user roles can register and successfully login to their user role pages. (user can register as user and login to user account). admin can add admin role only. they can't register the page.

Quiz App

i developed a Simple Quiz app using React js and CSS. user can skip the quiz and submit another quiz. finally, user can see the wrong answers, correct answers and full overall of the results, also see the Results of submitted

SKILLS

HTML	CSS	Javascript	React js
Next Js	Tailwind CSS	Node Js	
Express Js	My SQL	MonogoDB	
Bootstrap	SCSS
